

NARVA™ NEW PRODUCT RELEASE

October 2009

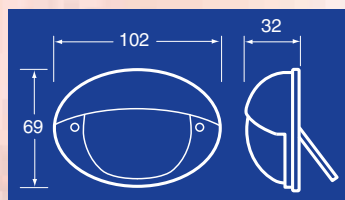

L.E.D. DOOR ENTRY/STEP LIGHT

Powerful and compact entry/step light suitable for interior and exterior applications

Constructed from virtually unbreakable polycarbonate, the 87606 is ideal for entry and step-well illumination in a range of vehicles including buses, coaches, emergency and specialised vehicles.

Featuring the latest high output L.E.D technology and specially designed optics, the light provides a wide flood of white light increasing safety for passengers by illuminating the curb or step-well when boarding and disembarking the vehicle.

The polycarbonate lens is UV resistant protecting the lens from discolouration. The lamp is pre-wired, includes a neoprene gasket for a water tight seal and is rated to IP67.

5 Year L.E.D* Warranty

*This warranty guarantees the operation of the L.E.D lamp for a period of 5 years and does not cover physical damage or abuse.

Description:

9–33V Multi-voltage L.E.D Door Entry/Step Light

P/No: **87606**

Barcode: 9314464876066

Availability: Ex-stock

Specifications:

Light Source: L.E.D

Nominal Voltage: 9–33V DC

Power Consumption: 0.3A at 12V
0.15A at 24V

Operating Temperature: -40°C to 65°C

Lens & Housing: Polycarbonate

IP Rating: IP67
